

Declaration of Decontamination

Dear Customer,

Please complete this declaration of decontamination completely and attach it to your shipment in such a way that the certificate can be read without unpacking the product (for example by putting it in an envelope on the outside of the shipping carton)

A fully completed declaration of decontamination is a prerequisite for the acceptance and further processing of your repair / returned goods. If this explanation is missing, we will carry out the decontamination at your expense before further processing. In the case of heavy soiling, we reserve the right to return the goods unprocessed and subject to a charge.

Thank you for your understanding!

Product description:

Serial number:

Mandatory field
